to Witness Jeffries and Johnson Fight for the Heavy-weight Championship May Be Opened in Many classy material." Cities-Other Sporting Gossip.

The selection of a site for the erection of an arena wherein Johnson and Jeffries will fight for the world's heavy-weight championship on Independence Day has cleared the pugilistic atmosphere. It is now possible for both the principles and the promoters to complete their plans for the preliminary work, and it marks a long step toward the actual staging of what is already conceded to be the greatest pugilistic contest ever waged. Until the announcement was made at San Francisco on Tuesday night that the race track at Emeryville, just outside of Oakland, was to be the scene of the title bout the arrangement of details

No More Wrangling.

As has been predicted, harmony and a wrangling among the promoters of the affair, and another shrewd advertisement dodge to keep the coming battle before the public has been filed away to make room for interesting and authentic news. The latest reports from the Pacific Coast are to the effect that the promoters have reached a most harmonious state, and will proceed with necessary arrangements for the erection of an arena which will accommodate from 80,000 to 100,000 spectators. The combined population of 'Frisco and Oakland affords almost three-quarters of a million to draw from, and the trip by boat, trolley, and third rail will not consume more than thirty minutes from the most central parts of the two cities. Every aid and assistance possible will be given by the city officers of Emeryville and Thomas H. Williams, the president of the California Jockey Club.

Mayor Christie, of Emeryville, is well leased with the turn things have taken. He is said to be attuned to anything the race track may desire. Christie has been elected mayor of Emeryville eleven times. and what he says usually goes. He promises that his city council will vote the permit on Monday night. Emeryville is a manufacturing town as well as a racing town. Steam and electric trains run from the ferry to the grounds. Street car lines from all points in Oakland and Alameda County reach the track, and the overland Pacific and Santa Fe trains pass the gate. The Eastern fans, if they so desired, might get on an overland at Chicago and stay on until it reaches Emeryville. From the 'Frisco side of the bay to the race track is a thirtyminute trip. Arrangements for the transporting of

fight enthusiasts to the scene of the battle, the sale of tickets, and scores of other details have already been provided for. Claiming the Title.

New York, March 10 .- The attitude of the Columbia basket-ball team in reference to the disputed question of the Eastern college championship is explained in the following statement issued by Coach Fisher:

"Columbia claims no championship whatsoever in basket-ball. It has won two games each from the colleges which formerly composed the Eastern Intercollegiate Basket-ball League, except Cornell, with which no games were played, namely, Yale, Princeton, and Pennsylvania, one game being played against each of these colleges on its home court. It completed a schedule of eleven games without defeat. "Toward the close of the season Co-

lumbia received challenges from a number of teams claiming to be entitled to the championship. It would have been glad to have played games with some of these colleges, though manifestly it could not have played them all, but last fall the university committee on athletics ordered the basket-ball team not to extend its schedule beyond the first of March on account of interference with other branches of sport. Not one of the challenging teams had completed its schedule at that time.

"As to the place which the Columbia team should have among the colleges which have not been played, the records of the various teams must determine."
